GARDEN WINDOWS 2026

Series 2050 | Series 2050i | Series 2051 | Box Bay 90-Deg

Open Up Your Space, Add Light

Open any space in your home with a garden window and create a beautiful setting for your plants, collectibles, or decorations. It could be the perfect finishing touch for your kitchen, bath, make-over, remodeling project or new home.

We offer three different types of garden windows and a bay window.

SERIES 2050

Destinctive Design. Excellent Performance.

FEATURES

- Both vents and deadlites have a built-in weep system and external glazing.
- A structural silicone is used to glaze the top slope and vertical deadlight portions of the unit.
- Snap-in sill cover for seat board provides aesthetic appeal and weather resistance.
- Exterior grade plywood head board, seat board and jamb are 1-1/4-inch for improved structural and thermal performance.
- Engineered for new construction and remodeling applications.
- Standard garden window jamb depths of 4-9/16, 5-1/4, 6-9/16, and 11 inches are available as well as custom jamb depths to fit any application.
- Fully welded, rigid PVC frame for greater strength and stability
- The center mullion contains aluminum and steel reinforcements
- Vinyl frame will not hip, rot or peel and will never need to be painted

CUSTOMIZE YOUR PERFECT GARDEN WINDOW.

Choose from our variety of colors and options.

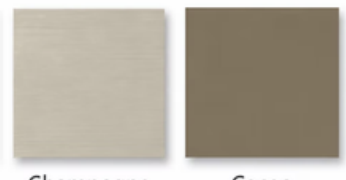

For more information visit: ventana-usa.com

COLOR OPTIONS

➤ Standard frame colors are White, Beige, Blue-White and White Exterior with Light Oak Interior.
➤Other colors are available by special order, including: Champagne or Cocoa Exterior with a White Interior.
➤ Also available as a special order option is our color match system which allows the window to be painted to match your color sample.

HEAD BOARD, SEAT BOARD AND JAMB COLORS.

➤ Head board, seat board, jamb and edge banding are available in Birch or Oak veneer and White or Tan Pionite (HPL). Special order interior options include Light Oak, Dark Oak or Cherry (HPL).

ACRYLIC SOLID SURFACE SEAT BOARD COLORS

➤ An acrylic solid surface seat board is available in Arctic White and decorator colors: Almond, Vanilla Sugar, Gray Granite, Black Pearl or White Quartz.

Please Note:
The color samples shown here are reproduced by mechanical process and may vary from actual colors of the product. Please contact your sales representative for samples before ordering.HPL = High Pressure Laminate

ADVANCED HARDWARE. VERSATILE SASH OPERATION.

HARDWARE COLOR OPTIONS.

➤ Standard hardware colors are White, Beige, Blue-White and Nickel.

OPERATING SASH

➤ Locks and operators are conveniently mounted to the inside front area for easy access.

➤ Operators are sealed to prevent air and water infiltration.

➤ Twin sealing, fully screened, operating casements with external glazing for improved weather protection.

➤ The screens have a high-performance spring steel frame that is captured in the screen track and can be easily removed from inside the home. You will no longer see a screen frame and will gain more viewing area through the glass.

➤ The multi-point locking system provides a tighter seal and additional security
